

POLYPORTER®

Pipe Portability for 2" IPS through 8" DIPS pipe (63mm to 250mm)

SPECIFICATIONS

MODELS

864201:..... PolyPorter pipe stand and dolly

CAPACITY

Lifts:..... 2" IPS to 8" DIPS pipe (63mm to 250mm)

Height Range:..... 20.5" - 38" (521mm - 965mm) at center of 8" DIPS pipe

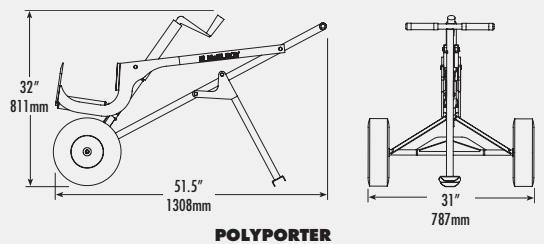

Maximum Load:..... 300 lbs. (136 Kg)

WEIGHT

PolyPorter:..... 63 lbs. (28.6 Kg)

MOBILITY

Tires:..... Inflatable tires

INCLUSIONS

Specifications subject to change without notice.

OVERVIEW

The McElroy PolyPorter® was created from the mind of a pipeline contractor. It is an innovative workhorse that tackles the job of handling pipe in the field. The PolyPorter combines the mechanical advantage of a dolly with the functionality of a pipe stand to create one of the most useful pipeline tools.

One person can load a length of pipe without strain. The pipe can then be pushed easily through the roller-equipped hook arm into the fusion machine. The jack enables the operator to raise and lower the PolyPorter to level the pipe in uneven terrain to the height of the machine.

The PolyPorter plays a key role in the Pit Bull® 14 and 26 Productivity Packages. The productivity package options allows a contractor to order a fusion machine, Manual Fusion Machine Stand and two PolyPorters to create a jobsite set-up that saves time and money.

FEATURES

- Can lift 2" IPS to 8" DIPS (63mm to 250mm) pipe
- Combines the advantage of a dolly and a pipe stand
- One person can easily load a length of pipe without strain
- Pipe easily slides through the roller into the fusion machine
- Jack enables PolyPorter to be raised to the height of the fusion machine
